

# Scholarship Programme

Heathfield Scholars receive a personalised mentorship programme which includes access to specialised equipment, training or activities related to their field of Scholarship.

Scholars make significant contributions to the school and will develop their leadership skills through support from their mentor. Every Scholar has a unique set of skills and talents and our mentorship programme aims to reflect this. Every Scholar's experience of the Scholarship programme is as unique as they are. Ambition and high expectations are at the heart of every programme and the Scholar's mentor will support, guide and encourage them to excel.
